

Dear CLPE family,

You should have just received an email from our Superintendent, Sandra Smyser about what all has transpired with PSD over the last several days. As I said before, people first, stuff later. I'm so proud and happy for my dear prinpal friend, Kristin Stolte, from Linton in getting her young charges back safely from Estes Park.

As you can imagine, this has been an extremely busy weekend. ServePRO continues to work diligently to help our school clean up and be ready to start again. Our teachers are working as I write this in repurposing and moving some classrooms. I can't give details at this moment, but will as soon as possible.

Thanks to all who responded or sent good wishes. I truly appreciate it!

We are pirates and we will work as a CREW to accomplish our many tasks in the next days and weeks.

Thank you again for your continued support!

Roxann Hall
